Silk Road: anonymous marketplace

This is not the Silk Road, but you are close...

Silk Road is a [Tor Hidden Service](#) that allows you to buy and sell anonymously online using [Bitcoins](#). To access the Silk Road site, you must use a tor enabled browser. If you use firefox, you can simply install the [Tor button](#) plug-in.

Once your browser is configured to use tor, browse to <http://tydgccykixpbu6uz.onion>. It will take a minute or two to make the initial connection, but then you can browse the site more quickly.

At Silk Road, every precaution is made to ensure your anonymity and security, from connecting to the site, to making your transactions, to receiving your items. Current offerings include Marijuana, Shrooms and MDMA. You may also sell items anonymously on Silk Road as an independent seller.

So what are you waiting for? Install Tor and go to Silk Road now!

-Silk Road staff

One Response to *This is not the Silk Road, but you are close...*

looks like a scam. *says:*

January 30, 2011 at 11:48 pm

does not list delivery times or any basic information

if you send them BTC, i would not expect to see anything in return
