First Class Domestic U?

This is a listing for a forged social security card. The card will look just like it looks in the picture (it is supposed to be offset as the real ones are printed that way). It will be printed on thick tag board cards and will be two sided. These are about just as good as the real ones as they have passed inside a bank before to open an account. These can even be used as one of the two forms of ID needed to open a PO box, so this and one other fake ID and you have a PO box under a fake name if you pay cash or use a prepaid card if card is required. The card will have whatever name and number you ask me to put on it. It will come unsigned and you will have to sign the signature on the card itself in ink as required for it to be valid. These are great if you just need to temporarily replace your card quicker than the formal process or need to assume another number or identity. This order will come with 4 identical cards in case you loose one, it gets something spilled on it or has wear and tear. This may also be used as secondary back up ID. If you match it to a fake ID and your fake is ever called into question presenting a backup matching ID will always clear any doubt. In addition if you assume another identity and all you have in your wallet is a fake ID and some cash it looks a little empty and suspicious, having more forms of ID and more cards to fill it up makes it look real, so buying this and more of my forged items will build a solid cover identity. Below is the order form.

1. Name (first, middle, last)
2. Number (000-00-0000)

*Please ensure to provide the name to be put on the card in all uppercase.

After you create the above order form make sure you paste it into the address/memo section in the shopping cart at check out, do not message it to me as then a copy is left in your sent box and my inbox needing to be deleted. Make sure before you place the order you save a copy of the order form and all info in case tor cuts out or SR does otherwise you will have to redo the whole thing, then after the order is placed delete and destroy the saved backup copy.

This item will be shipped between two strips of cardboard to armor it from mistreatment from mail carriers and to ensure it is not bent or damaged. I will also put it inside a plastic bag if you request me to before I put it in the envelope in case you live in an area where your package or mail is left in a moist environment such as it is snow season and it will be left on your doorstep, so just as if that is needed as this is a paper item. It will be in a discreet envelope and will be sealed in a way that is tamper evident, meaning if opened it cannot be resealed the same way and will show. The small envelope will be shipped with a tracking number without a signature so this way tabs can be kept on it without you giving out a signature or having to be home. It should fit in nearly every mail box or slot but still could be left on door steps. After you finalize the order I destroy the files using the Gutmann method of file destruction and shred the postal receipt in a paper shredder to keep this private, I suggest you do the same to any messages and destroy the envelope it came in by a paper shredder or burning it.

I can also do a cheaper version of the card where it is just a print out of the card on a sheet of paper designed to look like a xerox scan of the card in case all you need it for is to show to an employer or school as proof you have one and not bring in the actual card you can order just a scan from me at a much cheaper price and have the scan mailed to you or have a pdf emailed to you encrypted. Here is the link to the digital version:

👑 Forged Social Security Card - Digital Copy 👑

<http://silkroadvb5piz3r.onion/silkroad/item/c2510150e7>

Some users in the Silk Road marketplace have passed over this item or voiced concern regarding the appearance of the card. These users have asked why the card looks different from the Social Security card that they have that is their legit one. This is because this forged copy I am offering is not the current generation but the generation prior. The card was changed to a new generation after 9-11 when security measures were increased. The new cards have color change ink of the letters "USA" at the bottom center in the same kind of color change ink that is on U.S. currency down in the bottom right corner. In addition the background seal is different on the new copies. Both this forged generation and the new generations are valid. This is because Social Security cards are issued at birth or upon gaining citizenship and are good for the rest of your life, they do not expire. So if you are born before September 11, 2001 using my forged earlier generation is more credible than if you have a generation of Social Security card that was created well after you were born as it would be a dead giveaway. This way there are less anti counterfeiting measures on the card for someone to test and it will match you age / appearance. This card has received all 5/5 reviews and has passed every time so you are in good hands, use with extreme confidence.

Please keep in mind that despite the illicit black market nature of Silk Road that this marketplace does have a strict set of rules that all buyers and sellers are held to. One of those rules is that selling real identities or identity info is strictly banned. I simply make the forged Social Security cards with information provided by the customer. I do not sell real Social Security numbers, I do not have real Social Security numbers on hand and I will not refer you to anyone who does. Please do not message me and ask for any of that information or offer to sell any of that to me. I will simply delete your message. If say a buyer purchases this item and provides a real name and number then the order will get processed. I do not verify if the information is real or not so that is allowed on Silk Road, just I cant sell any real info.

➔➔➔➔➔➔➔➔➔➔➔➔➔➔➔➔

➔Get Express Processing➔

➔➔➔➔➔➔➔➔➔➔➔➔➔➔➔➔

If you need this item quickly I now offer a way to get express processing. If you order the express processing listing in conjunction with this listing, then instead of your order being processed after the other orders placed ahead of you; your order will be processed before any other order and shipped before any other order. This way you do not have to frantically message me asking for a speedy process and offering to pay extra, you can simply save time and just order the express processing. Please keep in mind that express processing does not alter the postage / delivery method option. Express processing will only get yours processed and shipped first, you will still need to select the proper postage option you want, so if you need it via EMS then select EMS when ordering, then order the express processing on top of that, this way digital orders do not pay for postage they will not use and buyers who only want priority or first class with their express processing can do so.

I made a mistake and the vendor worked with me and even provided an extra card.</div> <div>This is my new go to guy for ID forgeries</div>	<div>1y 3m old 5 of 5</div>
<div><div>MyAliasName</div><div>orders spent vendors</div><div>10+ \$10+ 10+</div></div>	<div>review for: 🔒 Forged Social Security Card 🔒 qty: 1 price: \$0+</div> <div>I am impressed! I just did a side by side check with the real deal version of this era card...and it is a very nice product! The only problem you could possibly have if ever using this card in person, it that it simply looks brand new for a card that has not been issued for several years now. But most are using it for scans, etc...so no problems there.</div> <div>BONUS: The vendor is kind enough include several copies with your order (Props To This Vendor). It is very helpful that several copies are included, bc I can try different aging methods on one or two of the cards to try and make it look a bit older and beat up...like an authentic card issued in this era.</div> <div>Will definitely do business with again!</div>	<div>1y 3m old 5 of 5</div>
