## Description

This HUGE (3GB+) hack pack is probably the best deal on Silk Road, to date. No, this is not a pack full of outdated, ineffective programs -- all software and files have been updated in the past 2 months, and are guaranteed to work.

- Account Creator
- Admin Page Finder
- Aircrack-ng for Windows
- Anonymous High-Orbit Cannon
- Apex
- Athena
- BIG Mail-List
- Binders
- BlackShades 4.8
- Bombers
- Booters
- Booter Source Codes
- Botnet
- Bruteforcers
- Cain & Abel Password Sniffing Tool
- Chat Exploits
- CommView
- cPanel Bruteforcer
- Crackers
- Crypters
- DoS Tools
- DDoS Tools
- Deface Pages
- Duplicate Removers
- Dork Pages
- Exploit Scanners
- etc (will eventually add all 150 programs)

This pack includes almost every hacking-related tool available, from white-hat (clean code) to black-hat (SpyEye, Zeus, etc)

I will continuously be compiling and updating this pack. I will also be raising the price of this pack to \$50 in the next month.

To the ONLY person that gave something other than 5/5:

"1 of 5 got virus in it"

Are you serious? You purchased a hacking pack loaded with keyloggers, RATs, banking trojans, and other various malware. If that doesn't set off AV, I don't know what will. If you are still unsure of the programs, run in a VM or Sandboxed. Please don't purchase my listings if you lack common sense.

If you have any questions, feel free to send me a message.
