Silk Road discussion / Re: Main site down for maintenance

« on: July 23, 2011, 01:58 am »

ok, i think we got it. the "recent feedback" display on the homepage was the problem the way we were displaying it was inefficient and using up all of the server resources. took it down and it seems to be fixed now. I think we'll replace it with something more informative anyway.

I don't even have time to announce and you guys are on it!

 [Reply](#) [Quote](#) [Notify](#) [Remove](#)

an order is hedged or not the moment it is shipped (confirm shipment button). So, if you change your setting to hedge your escrow account, all future orders will be hedged, but ones that have already been shipped unhedged won't be.
